## ABOUT ME

My passion for making people smile started at the age of 7. I taught myself ventriloquism as a way to cope with the loss of my brother. I used my talent to make people laugh. My social media content focuses on bringing joy through comedy, travel, puppets and occasionally sharing about my life experiences as an actor on shows like iCarly.

### ABOUT ME

I'm one of the top Halloween & Escape Room authorities in the nation. I contribute to USA Today as an expert in those travel categories. My blog has been a respected resource for a decade. I have branched out into some pop-ups, other holiday events and the occasional unusual or spooky location. My audience is small but mighty. They attend events based on my recommendations.
